PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, 2026) with hands-on experience in software engineering, full-stack web development, and Python backend development. Proficient in Python, JavaScript, React, Flask, FastAPI, Node.js, PostgreSQL, MongoDB, and Docker. Experienced in RESTful API design and integration, Agile/Scrum development, unit testing, and the Software Development Lifecycle (SDLC). Built scalable backend systems and PyTorch-based machine learning models across two internships in production environments. Seeking a Software Engineer or Full-Stack Developer role.

EDUCATION

Jaypee University of Information Technology, Solan

2022 – 2026

Bachelor of Technology – Computer Science Engineering

EXPERIENCE

Oppexl Technologies LLP

Dec 2025 – May 2026

Full-Stack Python Developer Intern | Product Development Division | 6 months

- Designed and integrated RESTful APIs and reusable React frontend components for a Unified Web Application, improving UX consistency and load performance across internal and external stakeholder interfaces.
- Developed Python (Flask) backend modules for data processing, file handling, and workflow automation using Object-Oriented Programming (OOP); wrote unit tests reducing cross-browser bug recurrence.
- Participated in full Agile/Scrum development cycles — sprint planning, code reviews, testing, and technical documentation — within a cross-functional software engineering team.

Whale Cloud Technology India Pvt. Ltd.

Jun 2025 – Jul 2025

Web Development Intern

- Developed and maintained front-end and back-end web application features using HTML, CSS, and JavaScript across the full Software Development Lifecycle (SDLC).
- Delivered client-side and server-side development tasks in a professional Agile team environment, using Git for version control and collaborative code management.

PROJECTS

VidSnapAI – AI-Powered Reel Generator

Jun 2026

Python, Flask, FFmpeg, ElevenLabs API, HTML, CSS, REST API

- Built a full-stack web application converting user-uploaded images and text into AI-narrated video reels (1080x1920) by integrating ElevenLabs Text-to-Speech (TTS) API for voiceover synthesis and FFmpeg for video encoding.
- Implemented asynchronous background processing using Python threading for concurrent file uploads, audio synthesis, and video rendering without blocking the Flask server.

Semi-Supervised Learning for Disaster Damage Assessment

May 2026

Python, PyTorch, TensorFlow, Keras, OpenCV, Vision Transformer (ViT), Machine Learning

- Developed a Vision Transformer (ViT) semi-supervised machine learning model for post-disaster building damage assessment on the xBD dataset using EMA Teacher-Student framework, pseudo-labeling, and consistency regularization.
- Built a 4-class damage classifier from satellite imagery with Grad-CAM integration for model interpretability across No Damage, Minor, Major, and Destroyed categories.

Full-Stack E-Commerce Platform (Blinkit Clone)

Dec 2025

React, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs

- Engineered a full-stack e-commerce application with JWT authentication, OTP verification, and dynamic management of 50+ product listings with search and filtering functionality.
- Implemented cart, admin panel, and order management modules using Node.js, Express.js, and MongoDB, improving system responsiveness and user interaction flow.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C++, SQL

Web Technologies: HTML, CSS, React, Node.js, Flask, FastAPI, Express.js, REST API, API Integration

Databases: MySQL, PostgreSQL, MongoDB

Frameworks & Libraries: PyTorch, TensorFlow, Keras, OpenCV

Tools & Platforms: Git, GitHub, Docker, Postman, Linux, FFmpeg, ElevenLabs API, GitHub Copilot

Methodologies: Agile, Scrum, SDLC, Unit Testing, Version Control, CI/CD

AI / ML: Machine Learning, Semi-Supervised Learning, Vision Transformers (ViT), Grad-CAM, Pseudo-Labeling

CS Fundamentals: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems

CERTIFICATIONS

- Complete 2026 Python Bootcamp: Learn Python from Scratch – Udemy
- Introduction to Cloud Computing – Infosys Springboard
- Machine Learning Foundation Certification – Infosys Springboard
- Explore Machine Learning using Python – Infosys Springboard
